

I am concerned to hear that the new LPFM stations may take precedence over the current FM translator stations. Our area receives 2 stations via FM translators that play wholesome music that is safe for my family to listen to. Many of the other local stations play violent, offensive and/or immoral music that does not encourage my teenage boys to be responsible, community-minded citizens. These 2 stations are the only area stations (that we can receive) that play Christian music. Today's youth are affected by the music they listen to and I feel that removing these 2 stations would have a negative effect on the teenagers in our area. Thank you for considering these concerns as you make your decision.
